

SEFAR® S-TEX

Sefar is the No. 1 provider of precision woven synthetic fabrics for all types of filtration and screening applications. Leading filter producers from various industries rely on Sefar products to provide reliable and effective filtration performance.

In order to fulfill the strict requirements of injection moulders and filter bag manufacturers Sefar has launched a new product range SEFAR® S-TEX, especially designed to fit the manufacturing process of these highly specialized customer groups.

The SEFAR® S-TEX product range is characterized by:

1. High dimensional stability and tensile strength
2. Consistent fabric stiffness and thickness
3. Repeatable pore size and filtration performance
4. Good cleanliness, no addition of antistatic coating

SEFAR® S-TEX products can be provided as roll goods, slit ribbons, stamped or cut pieces, in tube form, as pleated elements or custom manufactured to meet your exact requirements.

SEFAR® S-TEX	Material	Mesh opening [µm]	Fabric thickness [µm]	Open area [%]	Mesch count [n/cm]	Mesch count [n/inch]	Fabric width [cm]	Roll length [m]
